

ISQua seeks to bring together individuals from around the world from various perspectives; Therefore, the below will be considered when selecting a proposal to be included in the programme:

1. The number of submissions for an area of focus or topics addressed.
2. The number of submissions received from any one Institute, Organisation, Hospital etc.
3. The length of session requested in a proposal, in terms of selection for the program. The selection committees value diversity of presentation teams in terms of ethnicity, culture, gender, level of experience or areas of expertise.
4. Priority will be given to sessions.
  - with patient collaborations
  - which are innovative
  - which demonstrate robust research
  - have proof of contribution (Evaluation of effectiveness)
